

2018 APASL Single Topic Conference on Hepatitis B Virus Taipei

HBV

APASL STC 2018

Towards Hepatitis B Elimination - Following Hepatitis C Cure

June 22-24

Taipei International Convention Center
Taipei, Taiwan

Jaw-Ching Wu

CURRENT POSITIONS

Director, Medical Research Department; Chair Professor, Institute of Clinical Medicine

EDUCATIONAL AND CAREER EXPERIENCES

M.D. - Taipei Medical College, 1972-1979

Ph.D. - Institute of Clinical Medicine, National Yang-Ming University, Taipei, 1987-1990

President, Taiwan Association for the Study of Liver (TASL), 2008-2009

APASL, STC at Taipei. Scientific Committee . 2018

Distinguished professor, National Yang-Ming University, 2007-2016

Chair professor, National Yang-Ming University, 2017-2021

Chief, Translational Research Division, Medical Research Department, Taipei Veterans General Hospital, 2013-2017

Director, Medical Research Department, Taipei Veterans General Hospital, 2017 till now

PUBLICATION/ AWARDS AND HONORS/ OWNED PATENTS

1993-1998 - 3 times of Outstanding research awards from the National Science Council, Taiwan

1996-Outstanding merit and high scholastic achievement to medical and pharmaceutical research award of Wang Ming-Ning Foundation, Taiwan.

1996 - The Best Medical Technology Advancement Award, Taipei Veterans General Hospital

2007 Presidential Award, 17th Asian Pacific Association for the Study of the Liver Conference at Kyoto

2009 Important Academic Achievements at the 50th Anniversaries of Taipei Veterans General Hospital

2010 Outstanding alumnus in Academic Achievement Award, National Yang-Ming University

1988, 1991, 1995, 1999, 2000, 2016 - Academic Prize for Excellent Research, Taipei Veterans General Hospital

2016 The Academic Award of the Ministry of Education, Taiwan

FOCUS AND CONTRIBUTION OF RESEARCH: Viral Hepatitis and Hepatocellular Carcinoma. Esp. in HDV assembly, pathogenesis, transmission, molecular epidemiology and prevention. The discovery of major transmission route of HDV infection leading to marked decrease of HDV incidence and prevalence in Taiwan, The establishment of the first in vitro HDV package system and the subsequent serial studies contributing to the clarification of HDV assembly, pathogenesis and development of novel therapy. Mechanisms of HCC early and late recurrence and strategies of treatment contributing to the reduction of HCC incidence and postoperative recurrence.
